

Your Drive-Thru Guests Deserve to be Heard— Loud and Clear

Drive-thru audio is so much more than a headset and a speaker—it's the secret to faster service, happier customers, and increased sales. With PAR Clear™, you can hear every last detail the first time, clearing the way to drive-thru excellence for every guest.

For better or worse, your drive-thru moves at the speed of sound.

Your speed of service is only as good as your sound quality. And many drive-thrus are throttled by poor audio—crackling speakers, limited range, and poor configurability—which keep guests waiting and wanting more.

Did you know?

11% of drive-thru orders are inaccurate.

\$84,000 can be lost per location due to order errors.

Drive-thru orders take **>10% longer** with poor audio quality.
