

TASK.

Kitchen Management

From order to plate, serve excellence.

Streamline, Sizzle, Serve!

TASK Kitchen Management is more than just a display system; it's a comprehensive command centre designed to revolutionise your kitchen operations. From expediting service and delighting customers to optimising workflows and maximising profitability, TASK empowers your kitchen to perform at its peak.

Business Benefits

Immediate financial gains

- **Cost Control:** Streamline order processing, reduce errors, and free your staff for higher-value tasks.
- **Waste Reduction:** Minimise order mistakes and food waste, directly improving profitability.
- **Efficiency Boost:** Automated order routing and clear task assignments empower your kitchen to create exceptional dishes faster.
- **Happy Customers:** Faster order processing means reduced wait times and delighted diners.

Long-Term Business Growth

- **Data-Driven Decisions:** Gain insights into customer behaviour, preferences, and sales trends to refine your menu and marketing strategies.
- **Scalable Solution:** TASK grows with you, handling increased order volumes as your business expands.
- **Competitive Edge:** Stand out with a modern, convenient platform that seamlessly integrates with your Point of Sale system.

Product Features

→ Intuitive Command

Effortlessly manage orders and streamline your kitchen with TASK's user-friendly interface and real-time KDS integration.

→ Streamlined Workflow

Empower your team with customisable workflows and clear task assignments, even during the busiest rushes.

→ Choose Your View

Customise your layout and list views to match your kitchen's unique needs. Set alerts for prep times to keep everything on track.

→ Call the Shots

Tailor TASK to your exact preferences. Create tiered order prioritisation, link loyalty details, or group orders for maximum efficiency.

→ Flexibility

Adapt to any challenge, from fluctuating order volumes to complex recipes, ensuring smooth operations at all times.

→ Manage Your Employees

Streamline scheduling, track performance, and ensure optimal staffing levels for seamless service.

→ Lose the Paper

Eliminate paper tickets and streamline communication for faster service and instant insights into kitchen performance.

→ Manage Your Inventory

Effortlessly track stock levels and automate ingredient reordering to prevent shortages and reduce waste.

→ Reward Loyalty

Prioritise your most loyal customers with VIP treatment, boosting satisfaction and repeat business.

→ Collecting and Analysing Data

Gain valuable insights into kitchen performance, order accuracy, and prep times. Identify bottlenecks and optimise workflows for peak efficiency.
