

TASK.

POS Mobile

The power of POS in the palm
of your hand.

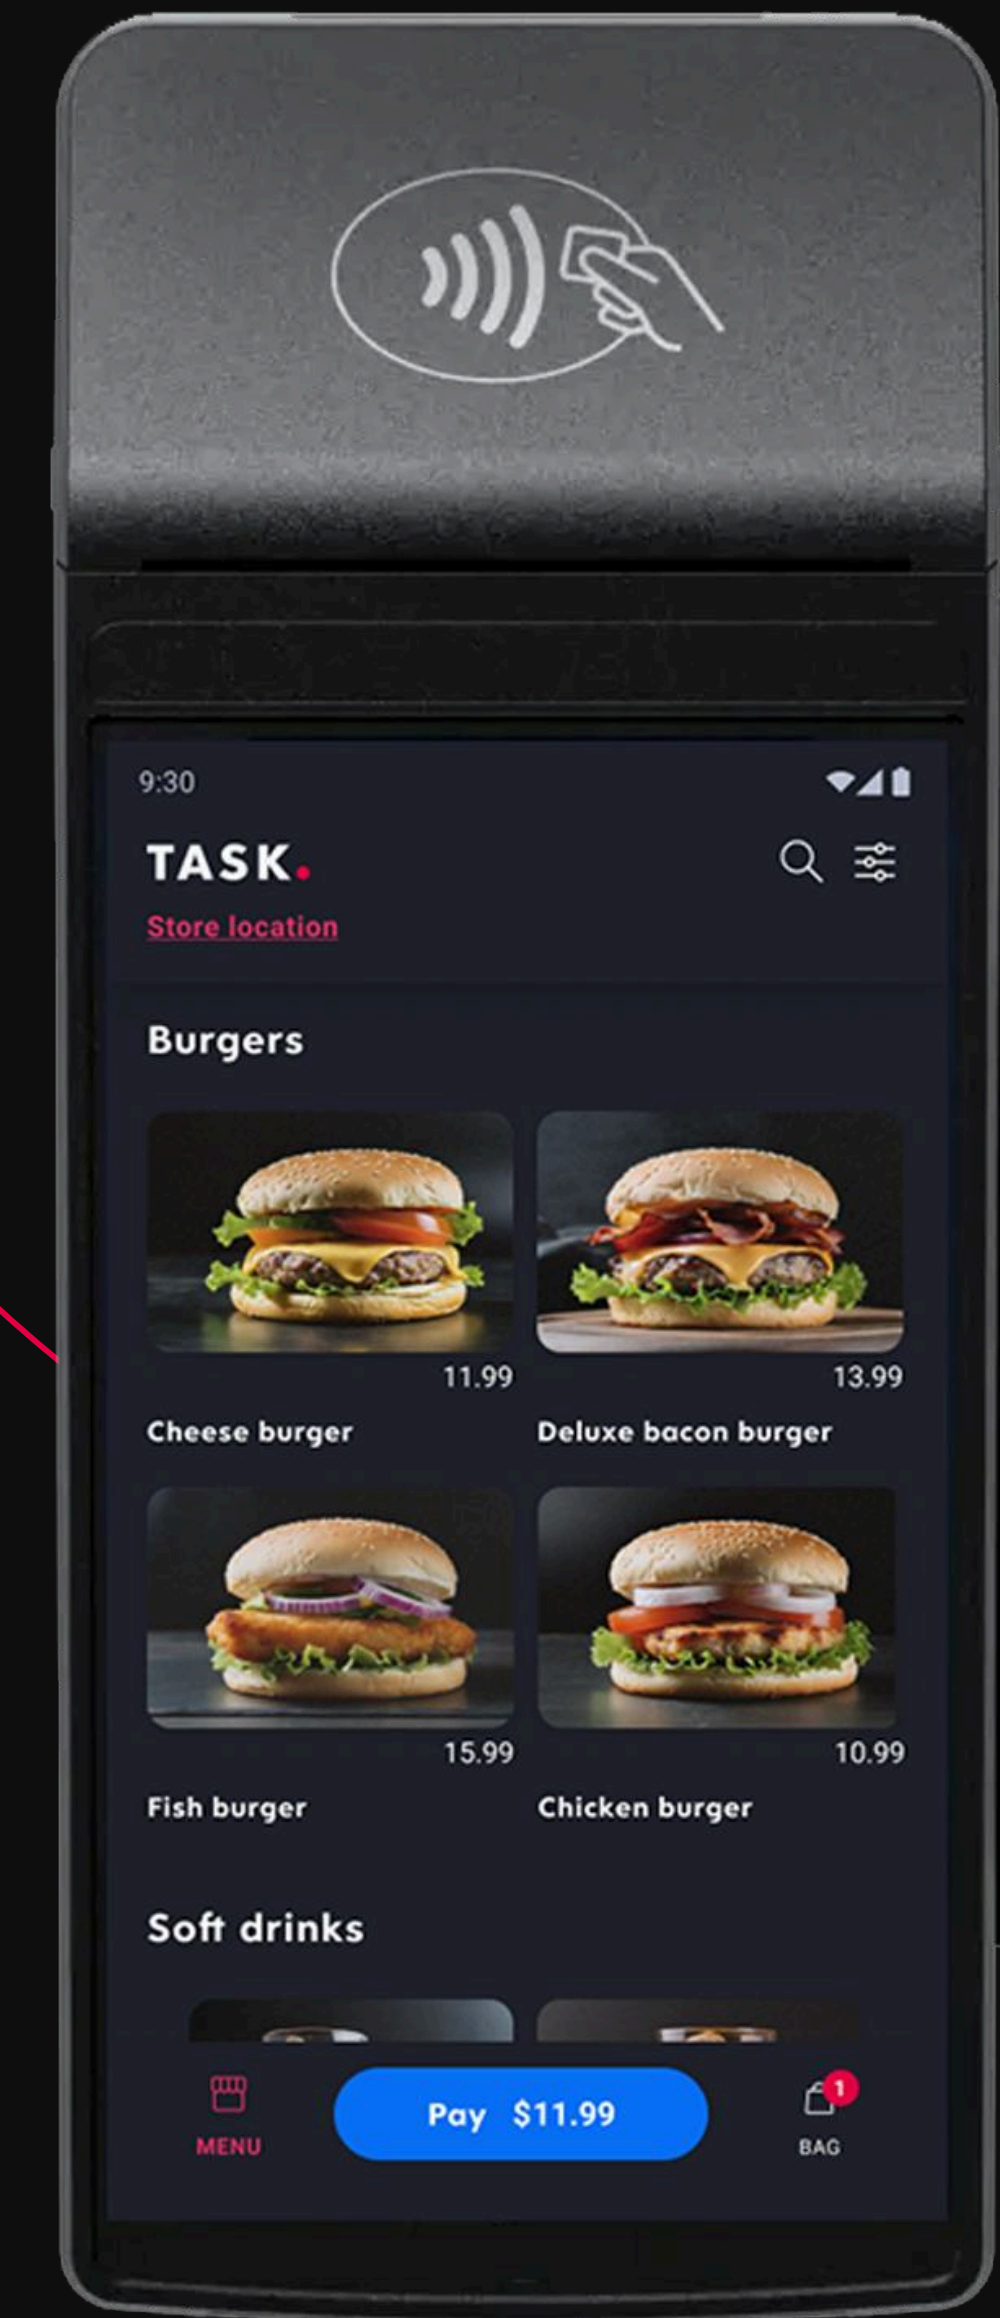

Mobile POS & Pay

Experience fast and convenient seamless transactions with TASK's POS Mobile solution. Execute fast point of sale transactions directly on a payment device, eliminating the need for extra peripherals. Built on Android, TASK POS Mobile supports POS and Pay on one device, connected via Wi-Fi or cellular, and fully integrated with the TASK API and reporting system.

Business Benefits

Immediate Advantages

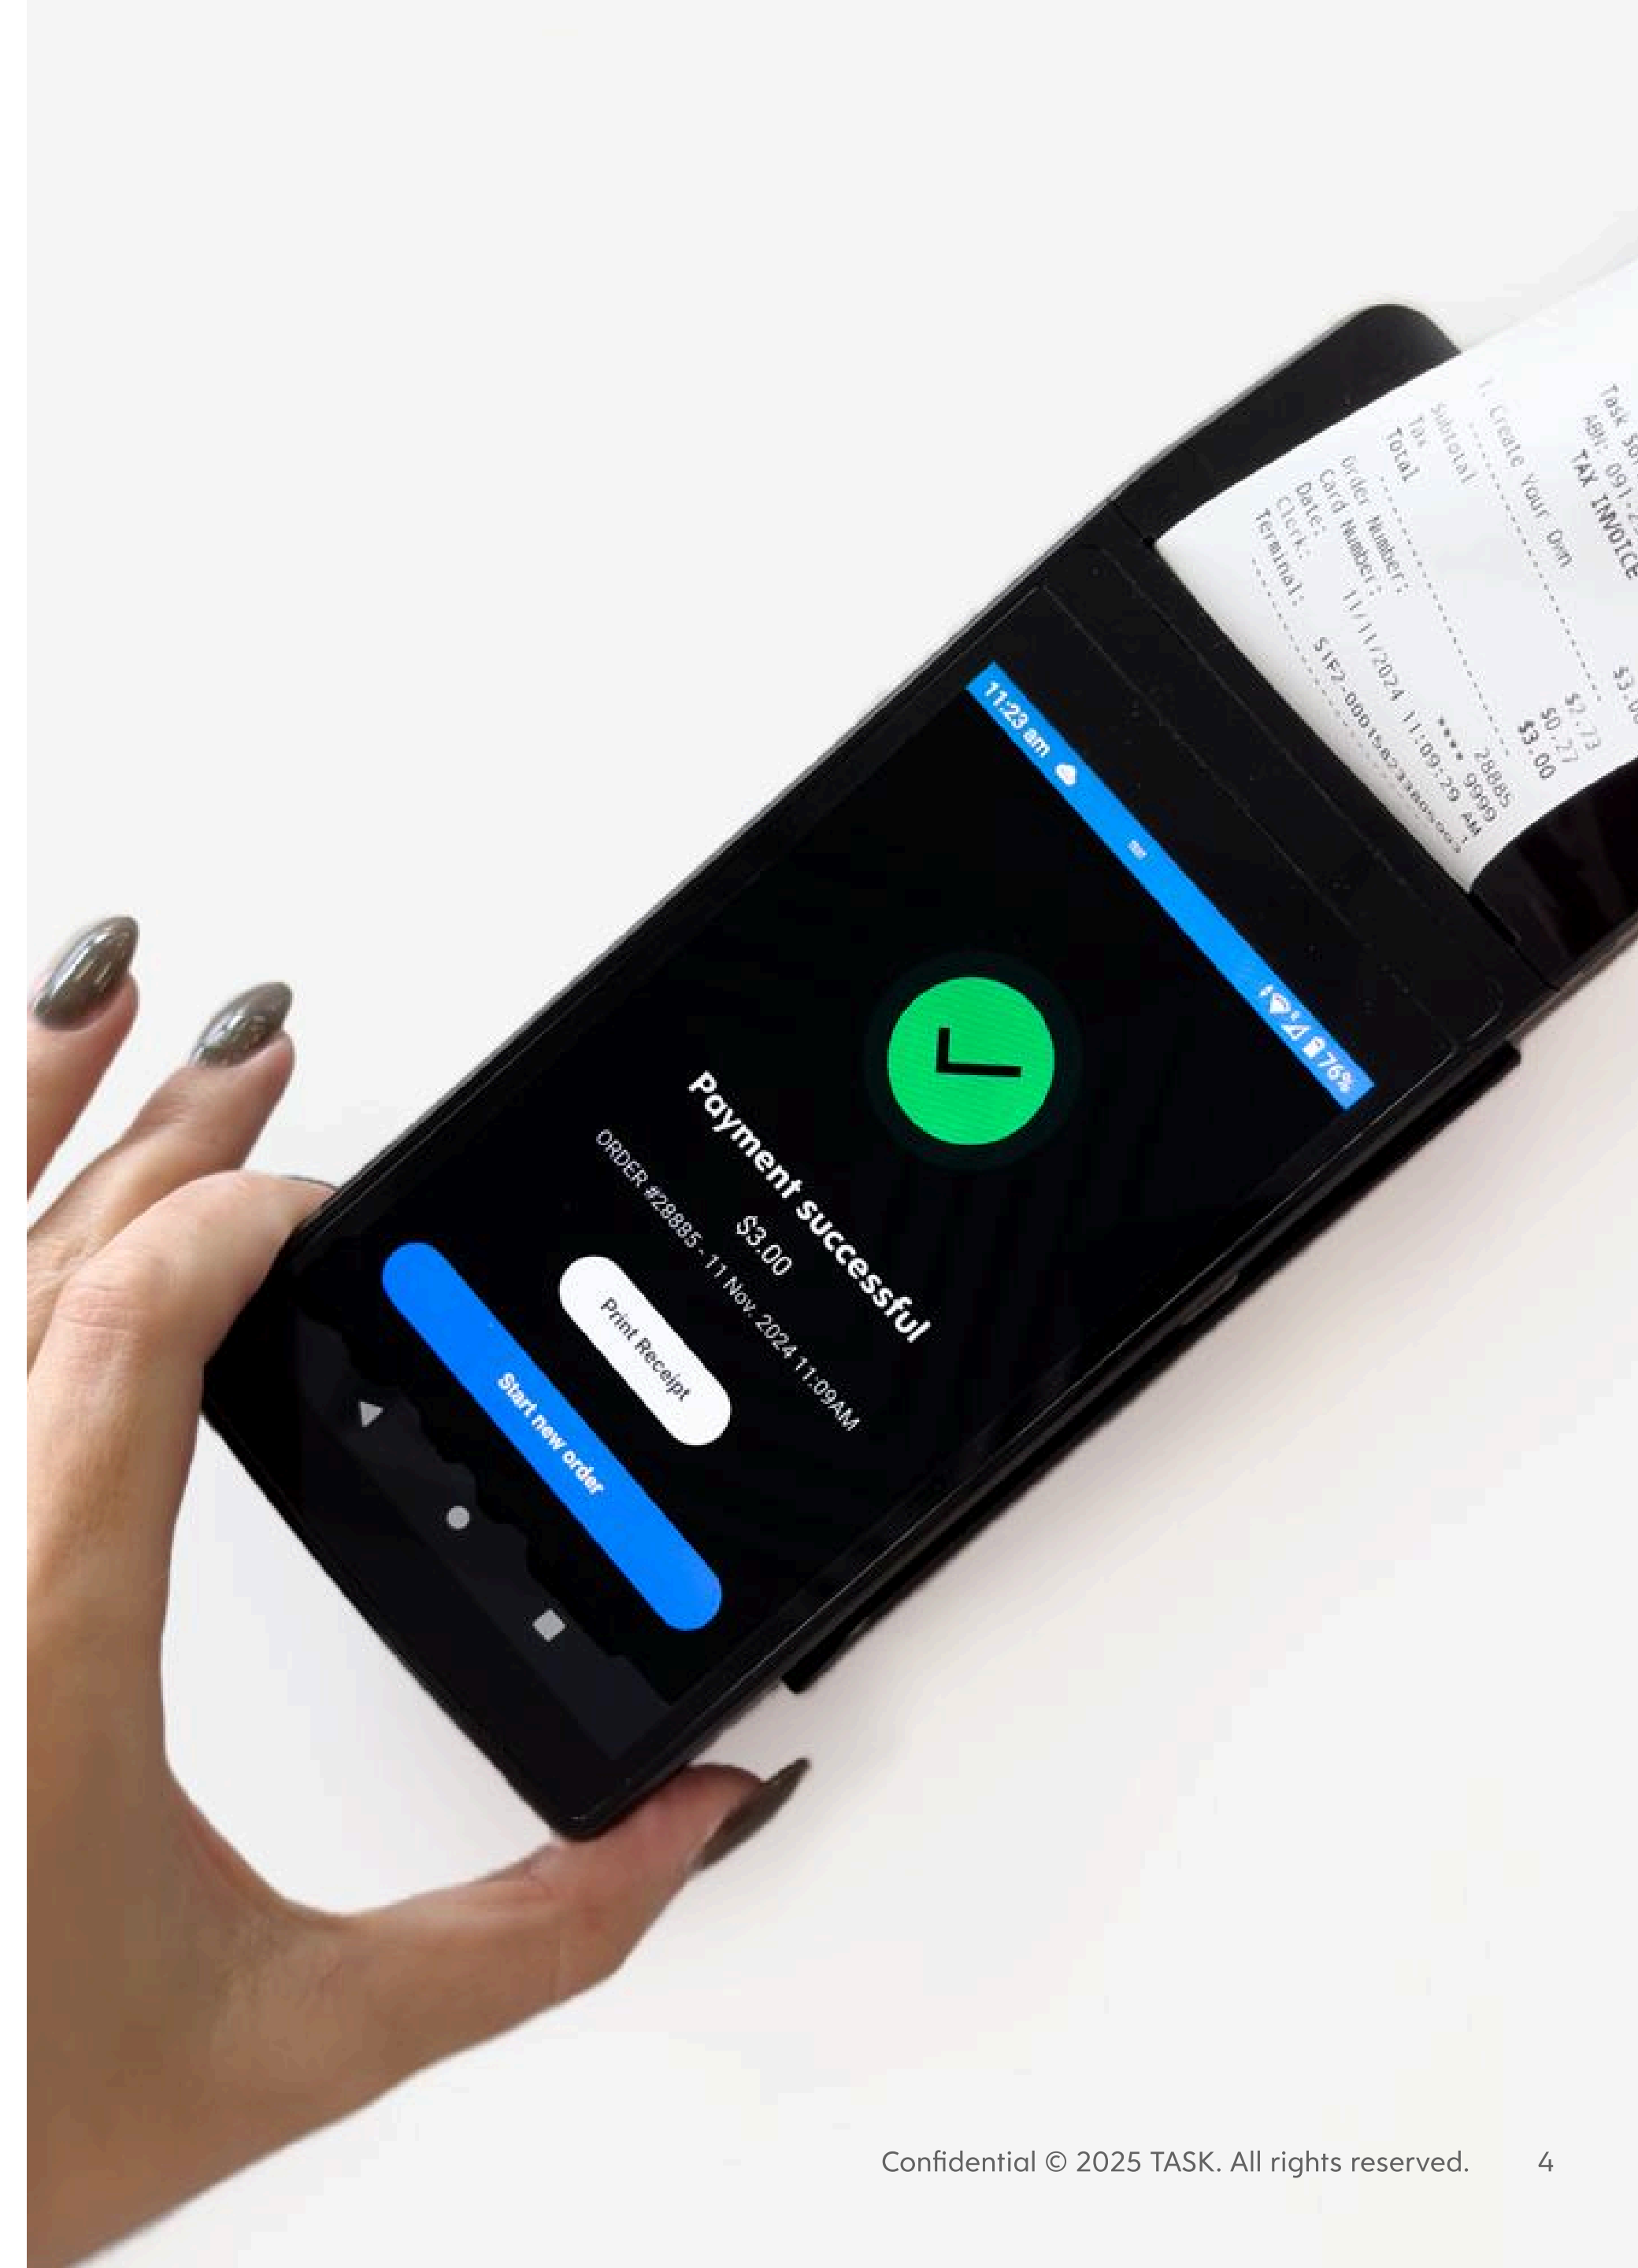

- **Flexibility:** Accept payments anywhere, whether at a physical store, a pop-up shop, or during roving beer and merchandise sales on the grounds.
- **Enhanced Customer Experience:** Provide faster and more convenient transactions to improve overall customer satisfaction.
- **Cost-effective:** The TASK POS Mobile platform and device are more affordable than traditional POS systems, making them ideal for businesses of all sizes.
- **Scalability:** Easily scale with your business, accommodating additional devices and users as needed.

Business Operations

Immediate financial gains

- **Everything You Need In One Device:** Enjoy the convenience of a portable, all-in-one device. Depending on the model, it can be equipped with a built-in printer, rear camera, barcode scanner, and fingerprint reader.
- **Accept Payments Anywhere:** Effortlessly take contactless payments on the go with our Tap, Tap, Done feature, no matter where your business takes you.
- **Versatile and Compatible:** Run your business with TASK POS mobile and seamlessly integrate it with other TASK solutions for a complete package.

Product Features

Designed to facilitate seamless payments anywhere

→ Portability

The TASK POS Mobile solution is compact and lightweight, ensuring ease of use and transport.

→ User-friendly Interface

Enjoy an intuitive interface that simplifies the transaction process for both employees and customers.

→ Wireless Connectivity

Depending on the device, connect to the internet via Wi-Fi or cellular networks, allowing transactions from almost any location.

→ Security Features

Benefit from robust security measures, including encryption and tokenization, to protect sensitive payment information.

→ Integrated Payment Options

Accept a variety of payment methods, including credit/debit cards, mobile wallets (such as Apple Pay and Google Pay), and contactless payments.

→ Battery Life

Most devices today offer impressive battery life, enabling uninterrupted use of POS Mobile and transactions on the go.

→ Glare Protection

Ensure clear screen visibility in daylight with effective glare protection.

POS Mobile

→ Ready, Get Set, GO.

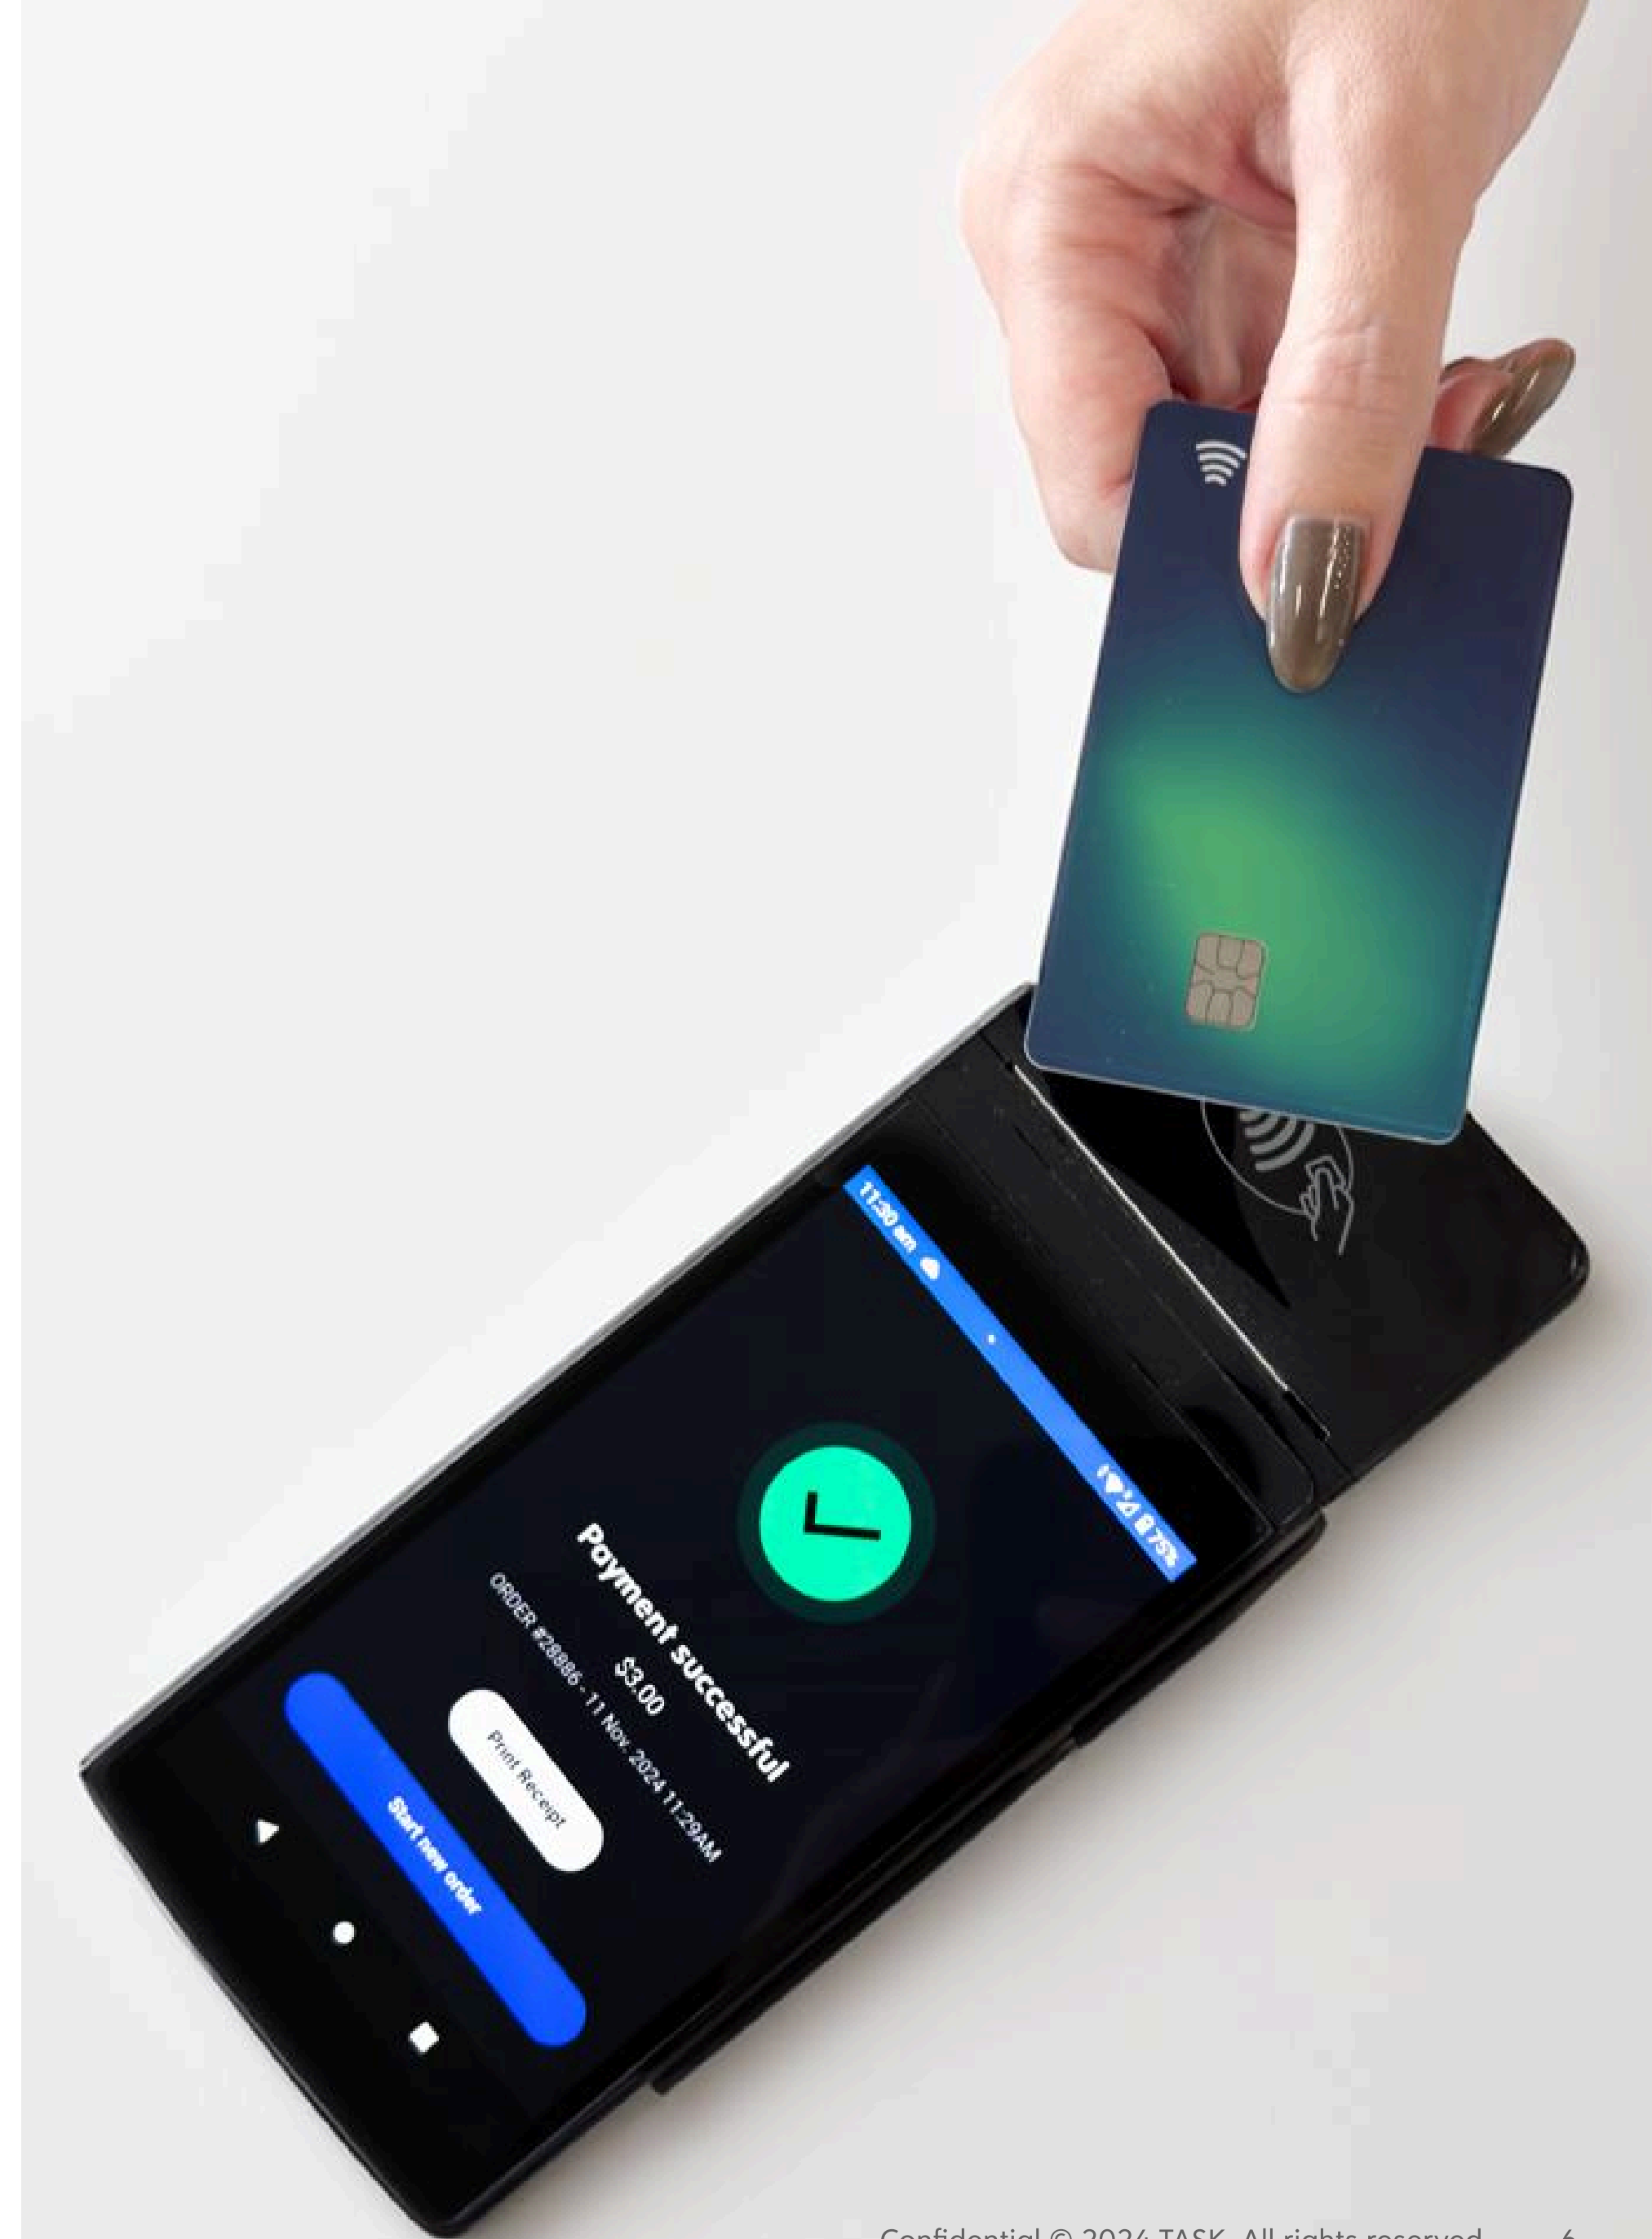

Get up and running smoother than ever with our seamless device log in and set up flow so you can handle the eb and flow of the crowd when they need their orders.. yesterday.

→ Quick pay, right from your ordering screen.

Through thoughtful UX and CX, we've optimised the time it takes to transact by allowing the ability to complete an order directly from the menu.

→ Flexible enough to handle the tricky stuff.

Whether in the aisle, or the kids play area, leverage the ability to conduct complex product modifications and even combo orders all while on the go.
