

TASK.

Point of Sale

From order to plate, serve excellence.

Streamline, Sizzle, Serve!

TASK POS is more than just a display system; it's a comprehensive command centre designed to revolutionise your kitchen operations. From expediting service and delighting customers to optimising workflows and maximising profitability, TASK empowers your kitchen to perform at its peak.

Business Benefits

Immediate financial gains

- **Faster Transactions:** TASK POS system streamline the payment process, reducing wait times and increasing table turnover, which can lead to higher sales during peak hours.
- **Cost Control:** Streamline order processing, reduce errors, and free your staff for higher-value tasks.
- **Inventory Management:** Real-time tracking of inventory helps prevent overstocking or running out of popular items, optimizing stock levels and reducing waste.
- **Efficiency Boost:** Automated order routing and clear task assignments empower your kitchen to create exceptional dishes faster.
- **Happy Customers:** Faster order processing means reduced wait times and delighted diners.

Long-Term Business Growth

- **Data-Driven Decisions:** Gain insights into customer behaviour, preferences, and sales trends to refine your menu, pricing and marketing strategies.
- **Enhanced Customer Experience:** Faster service and accurate orders improve customer satisfaction, encouraging repeat business and positive reviews.
- **Multi-Channel Sales:** TASK POS system integrate with TASK's online ordering and mobile and pay platforms, expanding your reach and increasing sales opportunities.
- **Scalable Solution:** TASK grows with you and can easily scale to accommodate additional locations, making it easier to manage multiple outlets from a single platform.

Product Features

→ Intuitive Command

Effortlessly manage orders and streamline your kitchen with TASK's user-friendly interface and real-time KDS integration.

→ Streamlined Workflow

Empower your team with customisable workflows and clear task assignments, even during the busiest rushes.

→ Call the Shots

Tailor TASK to your exact preferences. Create tiered order prioritization, link loyalty details, or group orders for maximum efficiency.

→ Flexibility

Adapt to any challenge, from fluctuation order volumes to complex recipes, ensuring smooth operations at all times.

→ Manage Your Inventory

Effortlessly track stock levels and automate ingredient reordering to prevent shortages and reduce waste.

→ Reward Loyalty

Prioritize your most loyal customers with VIP treatment, boosting satisfaction and repeat business.

→ Bring your Brand to Life

Easily customize your point of sale to create a string of brand-focused touchpoints.

→ Special Instructions

Add special requests or customization details to orders, e.g. "No mayo with that".

→ Determine your own course

Customize order flow regardless of the point of origin.

→ Conversational Ordering

Allow customers to order the way they want too through our advanced configuration options.

→ Device options

TASK can run on multiple devices with options to leverage current hardware.
