

Lines too long? Orders lagging? Guests walking away? Staff stuck with fragile consumer tablets?

PAR's next generation (Gen3) Tablets are purpose-built for restaurants, rugged, fast, and adaptable.

Available in 8" and 10" models, they deliver more power, performance, storage, and connectivity than our prior generations. With continued longevity over consumer tablets, PAR's tablet options are built to thrive in every service environment.

Whether your customer is seated at a table or vehicle, simply add the scanner for loyalty benefits and a payment device to the PAR Tablet to free yourself from completing the order at a static location. Integrated with PAR's POS software, the PAR Tablet becomes your mobile POS system.

Key Benefits

- Faster performance with Intel N100 Quad Core, 2.9GHz
- 8GB LPDDR5 + 128GB UFS for real-time responsiveness
- Swappable batteries with dual battery pack options
- Multiple charging options - single or quad docking stations, or simple USB-C
- Quality built - semi-rugged, IP65 sealed and drop resistant up to 1.8m
- Wi-Fi 6E, Bluetooth 5.3, USB-C, and enterprise accessories
- Windows 11 IoT LTSC v24H2 with Gen2/Gen3 dock support
