Erbert & Gerbert's Transforms Operations with PAR's Unified Restaurant Platform

New POS, payments, delivery loss recovery, and menu management solutions streamline complexity and boost efficiency across 80 locations

NEW HARTFORD, N.Y. (November 20, 2025) – [PAR Technology Corporation](#) (NYSE: PAR), a leading foodservice technology provider, today announced that [Erbert & Gerbert's Sandwich Shop®](#), the beloved sandwich chain with 80 locations across 8 states, has selected [PAR POS™](#), [PAR® Hardware](#), [PAR® Pay](#), [PAR® Payment Services](#), [PAR OPS™ Recovery](#), and [Managed Services](#) to accelerate its next phase of growth and operational excellence.

The decision follows Erbert & Gerbert's successful partnership with PAR's [Punchh®](#) loyalty platform and a comprehensive review of top restaurant technology providers. In recent years, the brand's leadership has doubled down on product quality, operational efficiency, and speed. Seeking a nimble, scalable core tech stack to support that strategy, Erbert & Gerbert's chose PAR to power its expansion.

"PAR helped us simplify complexity," said Tyler Schwecke, VP of Operations at Erbert & Gerbert's. "By consolidating intricate menu flows onto one screen, 80% of our menu can now be ordered without flipping between screens, for faster, more intuitive ordering and a stronger connection between crew and guest. Their consultative approach made all the difference—delivering a POS that's efficient, easy to maintain, and built with our success in mind."

Other key factors in the decision included ease of training, open APIs with an extensive integration ecosystem, and a strong services infrastructure that supports Erbert & Gerbert's lean operations team.

"Legacy systems slow brands down," said Savneet Singh, CEO of PAR Technology. "The future belongs to operators who embrace unified, flexible technology that is purposely designed to work stronger as a system. Erbert & Gerbert's shows what's possible—streamlined operations, faster service, and a platform built for growth. When technology connects front and back of house, restaurants gain the strength and resilience to thrive in a changing world. It's not just about technology—it's about creating a foundation for long-term success."

Visit [PAR's website](#) to learn more about our comprehensive suite of front- and back-of-house restaurant solutions.

About Erbert & Gerbert's

Founded in Wisconsin & now based in the Twin Cities of Minnesota, Erbert & Gerbert's is a regional sandwich concept known for its unique sandwich names, commitment to quality, & assortment of soups.
