

TECHNICAL SUPPORT SERVICES TERMS

PAR® PUNCHH® SERVICES

ParTech shall provide Customer with Technical Support Services as defined herein, for the PAR® Punchh® Services, in accordance with these Technical Support Services Terms for the PAR Punchh Services and the ("<u>Terms</u>") under the Master Agreement or in accordance with the Subscription Services Agreement (as applicable) (individually, the "<u>Agreement</u>"). Capitalized terms not otherwise defined herein shall have the meanings given them in these Terms or the Agreement, as applicable.

- 1. TECHNICAL SUPPORT SERVICES. Technical Support Services provide a communication path for Customer to submit Problems and/or Questions (as defined in the chart below), and to have a dialog with ParTech around resolution of said Problems and/or Questions. Technical Support Services are only available during Support Hours, unless expressly outlined below. A Problem means there is an actual problem with the functionality of the PAR Punchh Services OR a configuration issue with the PAR Punchh Services caused by ParTech. A Question means there is a question asked, or there is a configuration issue with the PAR Punchh Services caused by Customer or Customer's approved third party integrator to the PAR Punchh Services.
- 2. <u>Submitting a Ticket</u>. Although there are multiple means of submitting a Ticket to Technical Support Services, only one process allows Customer to designate any level or Priority/Severity. The approved submission method is via the Support Portal at https://support.punchh.com. Submissions outside the Support Portal will result in lower priority/severity being assigned to Customer's Problem, equating to slower Response Times. Response Times are defined as the written or verbal response from ParTech that is NOT an automated reply to a ticket submission. Technical Support Services will meet Service Level for a Customer's Contracted Technical Support Service Level Tier as elected by Customer in an Order and as set forth below.

Priority Level	Description	Initial Response	Success
		Time	Target
Severity 1	Catastrophic failure of the Punchh Services or renders the	2 Business Hours	95%
(URGENT)	Punchh Services inoperable by Customer such that little to no		
	business can be conducted		
	- Live environment only;		
	- Non-development issues; and		
	- Problems only (not Questions)		
Severity 2	Severe degradation of Punchh Services or loss of some	4 Business Hours	95%
(HIGH)	functionality having an impact on Customer business, but where		
	all or most guests can still use the Private Label App		
	- Live Environment only;		
	 Non-development issues; and 		
	- Problems and/or Questions		
Severity 3	Certain elements of usability functionality are impacted but most	6 Business Hours	95%
(NORMAL)	operations of the Punchh Services function normally		
	- Problems and/or Questions		
Severity 4	Little to no impact on Customer's ability to use the Punchh	48 Business Hours	Not
(LOW)	Services		measured
