PAR POS™

Delight Guests and Employees with PAR's Industry-Leading POS

PAR POS™ empowers operators to remove friction and improve efficiencies in every aspect of restaurant guest service.

With a cloud-based platform tailored for multi-unit operators, PAR POS™ offers enterprise-level capabilities, seamless ordering and fulfillment, intelligent kitchen management, advanced analytics, and effortless tech integrations—all designed to power your growth.

Built for Growth: Scalability is at the Core of PAR POS™

Unmatched Uptime
99.99% cloud uptime for stability even in the most high-demand environments.

Uninterrupted Service
Robust offline mode and cloud-independent backup keep you running, even with unexpected outages.

Continuous Innovation
Agile monthly release cycle ensures ongoing enhancements for a future-ready solution.

Hardware Flexibility
Use ours or bring your own Windows devices.

Real-Time, Drill-down Data
Centralized actionable insights over 10s, 100s and 1000s of locations on-the-go.

Simple Multi-location Administration
Schedule and publish updates—menus, pricing, layouts, and more—across any or all locations from one central portal.

Why Ambitious Restaurant Brands Love PAR POS™

Proven Execution
- Live in 26,000+ enterprise restaurants.
- Powering 30% of the top 50 restaurant brands in the U.S.*
- Direct, timely, & successful deployments with in-house technicians.

Easy to Use
- Intuitive design reduces staff training time to < 30 minutes.
- Limited button clicks and gesture-adaptive navigation gets orders in quickly and accurately.
- Tailor branding, menus, and workflows to your exact needs – or leverage ready-made templates.

Extensive Partner Ecosystem
- An open API and 300+ 3rd party integrations.
- First-mover on cutting-edge industry integrations.
- Tailored integration offerings – webhook notifications, in-store APIs, data streams and more — for optimized workflows.

White Glove Support
- 200+ in-house experts providing 7/365 coverage.
- Best-in-class customer SLAs consistently met or exceeded.
- Transparent partnership and communication – no hidden or bogus fees.

SALSARITA'S FRESH MEXICAN GRILL

"PAR POS™ was the first product we deployed due to the simplicity of the user interface and the flexibility of the design. We also liked the unit-level reporting suite for a single unit manager, the fact that it was cloud-based, and that it was affordable."

Tim Carter, CFO of Salsarita's Fresh Mexican Grill

PORT OF SUBS — YOUR NEIGHBORHOOD SANDWICH SHOP

"The biggest improvement we have seen since implementing PAR POS™ is our store-level stability because of its rock-solid system uptime. With better uptime, we can ensure greater consistency across the business. For us, consistent operating hours are just as crucial as the ability to process transactions smoothly at the store level."

Meghan Capello, VP of Marketing and Strategy at Port of Subs
