PAR Kiosk

HARDWARE DATA SHEET

SELF-SERVICE KIOSK

A self-service kiosk **built to fit your operation.**

Give customers a convenient way to order and pay, with the flexibility to fit your space, your software, and your payment terminal. The must-haves come standard, so you're not sourcing a kiosk piece by piece.

M8675A · ARM / Android

M8675 · Intel / Windows

BUILT TO FIT EACH OPERATION

One unit to order.
Printer and scanner built in, payment arm included. One unit to stage, mount, and cable.

One build for every layout.
7.87" deep on the counter. With a wall mount or floor-stand, a remodel means moving a kiosk, not replacing it.

Keep your payment terminal.
It can sit on the included arm. Choose the Android or Windows model your software needs.

Backed by PAR Hardware Services.
Advance Exchange ships a replacement before the failed unit comes back, plus nationwide field support.

TECHNICAL SPECIFICATIONS

Platform	ARM / ANDROID	INTEL / WINDOWS
Processor	MediaTek Genio 720 (MT8391), octa-core	Intel Core Ultra 5 125U (Meteor Lake), 12 cores / 14 threads, up to 4.3GHz
